Hi Jill. I'd like to make information on the five candidates running for City Council available on my personal website. Do you have a website link, or Facebook page, or another source of information I could share with the public? I know that you're scheduled to participate in the September 21 candidate forum facilitated by the League of Women Voters. My goal is to provide a way for members of the public to inform themselves about all five candidates. Anything you can offer to help serve that purpose would be much appreciated. Thanks. Diana
